## **BOSCH THERMOTECHNOLOGY ANNOUNCES NEW LINE OF GEOTHERMAL FLOW CENTERS WITH INDUSTRY'S LONGEST WARRANTY**

### **Ten-Year Limited Residential Warranty is Strongest in the Industry**

- ▶ Now available as pressurized, non-pressurized, and non-pressurized dual circuit
- ▶ Offered with constant speed and variable speed pump options
- ▶ Front flush ports allow easy access during installation
- ▶ Flo-Link™ double O-Ring fittings eliminate leaks and simplify installation
- ▶ All Bosch flow centers come with an industry leading 10-year limited warranty

**Londonderry, NH** - Bosch Thermotechnology Corp., a division of Robert Bosch North America, is launching a line of Bosch geothermal flow centers. Bosch flow centers are built for easy, time-saving installation and are available in a variety of combinations to suit the contractor or system designer's needs. Now available as pressurized, non-pressurized, and non-pressurized dual circuit, flow centers come with the quality you expect from Bosch, and are assembled and leak tested thoroughly.

Additionally, all Bosch flow centers come with an industry leading 10-year limited warranty - please go to [www.boschheatingandcooling.com](http://www.boschheatingandcooling.com) for full limited warranty details.

Bosch flow centers utilize industry standard circulators and cabinet design allowing pump heads to be rotated, or upgraded/downgraded (i.e. adding/removing a pump) to fit most job specifications. Many of these flow centers are easy to install - no tools are required (no need for pipe wrenches) and any type of transition (fusion, thread, barb, PVC glue, etc.) can be used with the appropriate Flo-Link™ fittings.

A new 6-page brochure describes features, benefits and specifications of the new flow centers – visit [www.boschheatingandcooling.com](http://www.boschheatingandcooling.com) to view the Residential Geothermal Heat Pumps page and scroll to “Flow Centers, Field Installed Accessories & Spare Parts.”

## **About Bosch**

### *About Bosch Thermotechnology*

*Bosch Thermotechnology is a leading source of high quality cooling and heating systems, including tankless, point-of-use and electric water heaters, floor-standing and wall-hung boilers, Bosch and FHP geothermal heat pump systems as well as controls and accessories for every product line.*

*Bosch Thermotechnology is committed to reinventing energy efficiency by offering smart products that work together as integrated systems that enhance quality of life in an ultra-efficient and environmentally friendly manner. For more information, visit [www.boschheatingandcooling.com](http://www.boschheatingandcooling.com)*

### *About the Bosch Group:*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 360,000 associates worldwide (as of April 1, 2015). The company generated sales of 49 billion euros (\$54 billion US) in 2014.\* Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in some 60 countries. Including its sales and service partners, Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. In 2014, Bosch applied for some 4,600 patents worldwide. The Bosch Group’s strategic objective is to create solutions for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is “Invented for life.”*

*Additional information is available online at [www.bosch.com](http://www.bosch.com) and [www.bosch-press.com](http://www.bosch-press.com), <http://twitter.com/BoschPresse>.*

*\*The sales figure disclosed for 2014 does not include the former joint ventures BSH Bosch und Siemens Hausgeräte GmbH (now BSH Hausgeräte GmbH) and ZF Lenksysteme GmbH (now Robert Bosch Automotive Steering GmbH), which have since been taken over completely.*

*Exchange Rate 1 EUR = \$1.11 US.*
